

# GOODY BAG TAGS

## MATERIALS

- Card Stock paper from any office supply or arts and crafts store. Templates were made for Letter size paper (8.5" x 11"). **TIP:** If you don't want to purchase an entire packet of decorative cardstock you can always save this PDF file to a USB Flash Drive to be printed at any office supply store like Staples.
  - Clear 'zippered' snack or sandwich bags.
  - Scissors
  - Stapler
- Optional: Hole Punch & Ribbon*

## DIRECTIONS

- Fill your zippered snack/sandwich bags with treats. Leave a little room at the top for attaching our Goody Bag Tags.
- Print the PDF file of this kit on your card stock paper or even a textured resume paper. **TIP:** Set your printer to maximum quality/resolution when printing the images.
- Cut out your Goody Tag Bags just inside the light gray dotted line.
- Place folded tag on top of the candy bag, centering it. Staple tag to the bag or you can use a hole punch and attach with string for a more decorative touch.

## CAUTION

Always remember to supervise children when they handle scissors; and never run with scissors, it would be fine to run with snacks, though.
