

# FAMILY DISCUSSION GUIDE

1. Science isn't the right tool to study God, because He is beyond nature - supernatural! Do you remember the two ways to learn about God we heard on the DVD? (*Revelation and Testimony*) Revelation comes to us through God's Word, the Bible. Testimonies are stories about what God has done in peoples' lives. **Can you share a testimony from a time God has done something amazing in your life?**
2. When Jesus left the Earth, His disciples were scared. They were afraid to talk about Jesus when Jesus wasn't around anymore. Then God sent them a helper. Do you remember who God sent? (*The Holy Spirit*) The Holy Spirit filled the disciples, and amazing things started happening! **Do you remember any of those things?** (*They became very brave, some of them spoke in different languages, others healed people with God's power.*)
3. Jesus gave His disciples a BIG challenge - He told them to preach the Good News in Judea, Samaria and to the Ends of the Earth! **What are some ways that we, as a family, can share the Good News with our neighborhood? Our friends? Our town?**
4. At first Jesus' followers thought the Good News was only for Jewish people. What did they call people who weren't Jews? (*Gentiles*) How did God tell Peter the Good News was for Gentiles, too? (*He gave him a dream about animals in a sheet.*) Who would take the Good News to Jews and Gentiles throughout the Roman Empire on long trips? (*Paul*)
5. We know that bad things happen, and sometimes we hurt. God has planned a kingdom for us that is free of sin and death. We have hope because of that! **Let's read 2 Corinthians 4:16-18, and pray thanking God for His promise, and asking Him to help us keep our focus on Him during hard days.**
